Resolution No. D604252

Rockwood

Township or Borough
Somerset County, Pennsylvania

Whereas, the Pennsylvania Uniform Construction Code does not have a minimum roof snow load; and

Whereas, Somerset County is one of the Counties in Pennsylvania under a case study for snow fall and snow load; and

Whereas, there is a need to set standard for Somerset County and all municipalities within Somerset County for a minimum roof snow load.

NOW THEREFORE, BE IT AND IT IS HEREBY RESOLVED:

1. The roof snow load for all new construction repairs and remodels for both residential and commercial buildings shall be a minimum of thirty five (35) pounds per square foot.

2. The above standard shall replace all current roof snow loads in use and will replace the case study currently listed for regions in Somerset County, Pennsylvania.

RESOLVED AND ENACTED THIS 25th day of April, 2006.
